The Fire Protection Office must be notified of any work or testing of existing life safety systems and may require submittals for review and approval. Please contact the Fire Protection Office by calling 415-745-0319 for guidance and requirements. No work may begin on any life safety system without prior approval and permit- if required- from the Fire Protection Office before work may commence.

New system installations require submittals including equipment specifications, shop drawings and relevant calculations for review and approval. Please contact the Presidio Trust Building Permitting Department by calling (415) 471-7249 or 415-589-0084 for further information regarding the permitting process and required submittals.
